Ioannina, Greece

dragatis.aris@gmail.com

SUMMARY

MSc Computer Science student with a focus on Java and Spring Boot. Passionate about building scalable applications and writing clean, maintainable code.

EDUCATION

Bachelor of Science in Informatics & Telecommunications

September 2019 - June 2025

University of Ioannina, Arta

GPA: 7.95/10.00

Master of Science in Computer Science & Engineering

September 2025 - present

University of Ioannina

SKILLS

Programming	Java, React
Frameworks	Spring Boot, Hibernate
Tools	Git, Maven, Docker
Databases	MySQL, SQL, PostgreSQL
WebServices	RESTful APIs, JSON

PROJECTS

Traineeship Application — Full Stack Reengineering

January 2026

MSc Software Development

<https://github.com/AristosDragatis/TraineeshipApp>

- Reengineered a legacy Spring Boot application by implementing **Martin Fowler's EAA patterns**.
- Refactored a "god class" controller into a decoupled **Service-oriented architecture**.
- Eliminated code duplication in search and assignment strategies by applying the **GoF Strategy** and **Template Method** design patterns.
- Developed a robust Back-end with **Java**, **Spring Boot**, and **Spring Data JPA**, managing a **MySQL** database schema.
- Built a dynamic Front-end using **Thymeleaf** templates and extended the system with a **REST API** for multi-platform integration.
- Developed and automated unit and integration tests using **JUnit** and **Mockito**.

Personal Finance Tracker

April 2026 - Present

Full-Stack Side Project

<https://github.com/AristosDragatis/FinanceTracker>

- Designing and developing a full-stack web application to monitor personal expenses and visualize financial data.
- Architecting the Back-end with **Java** and **Spring Boot**, focusing on a clean **RESTful API** design for seamless data flow.
- Implementing a responsive and interactive User Interface using **React.js**.
- Managing persistent data storage using **PostgreSQL**, ensuring data integrity and efficient querying for financial reports.
- Utilizing **Git** for version control and following an iterative development process to add features like automated category tagging.

WORK EXPERIENCE

Thrace Plastics Co SA (Thrace Group)

May 2019 - Present

*Warehouse Operator**Ioannina, Greece*

- Managing inventory and coordinating warehouse operations for a leading multinational packaging and technical fabrics group.
- Ensuring accurate stock monitoring and efficient distribution of raw materials and finished products to production lines.
- Collaborating with the supply chain team to optimize storage space and streamline loading/unloading processes.
- Demonstrating long-term professional consistency, reliability, and the ability to work effectively in high-pressure environments.
